### **Faus granted European Patent on Embossed in Register® and Bevel®**

The Faus Group is pleased to announce that the European Patent Office has recently issued to Faus its European Patent No. 1 229 183 B1. The '183 Patent provides further protection for and recognition of Faus's innovative Embossed-in-Register® and Joint Guard® technologies, which enhance the appearance and prolong the life of laminate flooring.

Faus has many patent applications pending in numerous countries, including for Faus's Embossed-In-Register® and Joint Guard® technologies, and European Patent 1 229 183 B1 is the latest addition to Faus's rapidly expanding global patent portfolio. Faus's other innovations and industry-recognized technologies include advanced flooring and molding technologies including Interplank®, Micro Bevel®, Long Strip™ and FasTrim®, to name a few.

Faus is a real global leader in the laminate flooring industry, with manufacturing facilities in Europe, Asia, and the United States. Always the leader in design and technology innovation, Faus manufactures products of the exceptional quality, designed to meet the highest consumer demands for laminate flooring and moldings.
